***Allowable Subject Matter***

1. Claims 1, 6, 11, 21, 24, 25, 29-31, 36-40 and 45-48 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of the independent claims 1, 31 and 40 are the inclusion of the following limitations that are not found in the prior art and they are uniquely distinct features. The closest prior art Zhang et al (2002/0174335 A1) and Palekar et al (US 20030226017 A1). Zhang discloses a method for providing authentication, authorization and accounting (AAA) transactions in a wireless network. Zhang also discloses that a mobile terminal (MT) receives services from an Internet service provider (ISP) having an authentication server through an access point (AP) with a server. Palekar discloses an efficient method for establishing a secure communication between two endpoints such as a wireless client and a network entity, which consist of two phases of establishing a secure tunnel and authenticating the wireless client. Palekar further discloses that for the purpose of establishing the secure tunnel between the two endpoints either the authentication method is negotiated or the protocol used for communication

However, these two arts, singularly or in combination, fail to anticipate or render the following limitation:

"Claim 1, 31 and 40: communication during the time includes at least one of a request for an identification of the user equipment and a request for capability of the user equipment to support at least one data protocol."

Art Unit: 2132

3. The dependent claims 6, 11, 21, 24, 25, 29-30, 36-39 and 45-48 are allowed because they were originally found to include a unique feature not found in the closest abovementioned art.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Abdulhakim Nobahar whose telephone number is 571-272-3808. The examiner can normally be reached on M-T 8-6.
